Natural Beauty

Escape to one of Southern California's most coveted coastlines and embrace the relaxing ambience of a resort designed to enhance its stunning natural surroundings.

TEXT BY WHITNEY LAW • PHOTOGRAPHY BY STEPHANIE WELBOURNE

TERRANEA

Each of the 582 guest rooms and suites, including spacious bungalows, casitas, and villas, located on the 102-acre estate feature a private balcony and a breathtaking view. The luxury resort is designed with its Mediterranean heritage in mind, offering a warm, residential feel for ultimate relaxation.

PHOTO COURTESY OF TERRANEA RESORT

Terranea is more than just a resort with an oceanfront view. Above coastal bluffs on the Palos Verdes Peninsula, Terranea offers an impressive panoramic seascape. Just 30 miles from downtown Los Angeles, California, guests will feel far removed from the hustle and bustle as they look out from all three sides of the peninsula at the Pacific Ocean or explore the trails leading to breathtaking vistas from within unspoiled nature preserves.

The Mediterranean heritage and natural beauty of the lush environment are incorporated into the architecture and inspire the light-filled guest rooms, suites, bungalows, casitas, and villas found on the 102-acre estate. Each room has a private balcony where you can enjoy the serene and sophisticated beauty of both the inside of your retreat and its glistening surroundings. 🏡

PENINSULA PARADISE

Terranea is located on the Palos Verdes Peninsula, and from almost any part of the peninsula guests can marvel at views of the California coast, Catalina Island, and the Channel Islands off in the distance. And amazingly, these sights can be enjoyed from any of the three heated pools, while walking along the trails, or from inside the luxurious retreats.
