10 amazing GOLF RESORTS

We're serving up some fabulous greens in North America, complemented by striking resorts and top-notch amenities.

terranea resort

Opened in June 2009 in Rancho Palos Verdes, the 102-acre **Terranea Resort** is only 20 miles from LAX. It sits above the Pacific, offering 270-degree oceanfront views and Mediterranean architecture and a design that tries to play up these views at every turn. Accommodation choices include a 360-room hotel, 20 2-bedroom bungalows, 50 oceanview casitas and 32 villas. Terranea offers an alternative to the mega-golf resort experience with a 9-hole, par 3 oceanfront course. The *Links at Terranea* boasts amazing views of the Pacific Ocean and Catalina Island. The 2-tiered practice putting green can be used as a 9- or 18-hole putting course. Golf clinics for adults and kids are available, and the links are very much a part of the programming for younger guests. This summer, Terranea is offering a series of five golf day camps for ages 7 to 15. Families can also enjoy three pools, including one with a 140-ft. waterslide, and a children's center for those who don't want to play golf. The resort also offers a secluded beach cove, miles of scenic bluff-top trails that connect miles of off-property coastal trails. Three oceanview restaurants have views as good as the food. And when it's time to truly wind down, the resort's impressive 50,000-sq.-ft. oceanfront spa

offers customized wellness treatments and features a 5,000-sq.-ft. fitness facility.

The *Unlimited Golf* package features accommodations, unlimited golf for two from check-in to check-out, boxed lunch for two delivered on course and daily resort fee. Rates start at \$465 per night (subject to availability).
