NOURISH.  
RESTORE.  
BALANCE.

In the early morning, your body begins a slow process: temperature increases, blood pressure elevates and hormone levels rise to prepare you for the day’s activities.

Around mid-afternoon, the natural biological process reverses: your body temperature begins a slow, steady cooling, blood pressure drops and hormones encourage relaxation and sleep.

This rhythmic, natural cycle of movement, rest and repair is known as the Circadian Rhythm. Mirroring this cycle, The Spa at Terranea recommends different treatments for morning and mid-afternoon to maximize the natural benefits to your well-being.
SIGNATURE SPA RITUALS

Inspired by nature and the Spa’s spectacular setting, signature spa and facial rituals maximize the benefits to your well-being. Mirroring nature’s cycle of movement, rest and repair, The Spa at Terranea recommends vibrant, invigorating morning treatments and gentle, quieting mid-afternoon and evening treatments. Below is a sampling of both from The Spa’s extensive menu.

MORNING & EARLY AFTERNOON RECOMMENDATIONS

OCEAN PRELUDE ◊
With the sound of the ocean’s waves crashing below from our signature suite, harness its nutrients to replenish yourself and reconnect. Begin with a dry brushing and replenishing seaweed wrap, rich in vital nutrients, before slipping into a relaxing saltwater bath. Your journey concludes with a warm, rhythmic, laminaria oil massage.

POWER OF STONE
With an immunity-enhancing crystal quartz exfoliation and vichy experience, the restorative healing warmth of smooth basalt stones stimulates and encourages the flow of oxygen and nutrients. Muscle discomfort simply melts away.

INSIDE & OUT ◊
Using contrast therapy and mineralizing clay, we accelerate your body’s detoxification process by beginning with an herbal wrap, followed by a temperature-cooling friction scrub. Continuing the process, you enter into our in-suite infrared sauna. After your body cools down in our Swiss shower, we complete the restoration with an application of red algae moisturizer.

COASTAL DETOX
Increase a feeling of lightness in the body with this treatment created to detoxify and purify the body. A thorough dry brushing of the body is followed by a massage with a special algae mud infused with thermal waters, laminaria from the sea and specific essential oils to increase circulation in the body. A stimulating vichy shower and application of nourishing oil helps complete this refreshing treatment.

OIL AND WATER
Promoting a sense of well-being, the use of seaweed rich laminaria oil is utilized to perform a rhythmic massage of warm, long strokes. An energizing ocean salt exfoliation follows and is washed away with the soothing waters of a vichy shower. A finishing cold-friction rub leaves you refreshed and renewed.
REVITALIZING MARINE MASSAGE
Relax while Mediterranean algae helps stimulate and detoxify the body. After a brief dry brushing to prepare the skin, the algae is applied during a purifying full body massage. This stimulating treatment helps relieve heat and the feeling of heaviness in the body; the benefits of a body treatment and massage, all in one.

CRYSTAL REFLECTIONS ◇
This treatment begins with a moment of reflection and setting your intention while soaking in a harmonizing, copper foot bath of healing crystal quartz. A reflex-structural foot massage then aims to promote alignment of mind and body.

VOLCANIC CLAY WRAP
Ideal for improving the skin’s appearance, a full-body exfoliation followed by a nourishing warm clay wrap of volcanic ash, combined with a stimulating vichy shower to reduce inflammation, tone and invigorate your skin.
